MEMPHIR, TENN., June 29, 1871.

We, the underesigned citisons of Memphis, certify that we this day witnessed the application of Pyron's Flametary Power to an Eighty saw Cotton tim, with the following results: The Gln was reverved with the usual rapidity, with a full roll of cotton, by two mules, at an easy gull and draught; and we forther state that we believe it greatly superior to any horse power we have any knowledge of, and a power suitable for every planter using a Gin, Grist or Saw-mill.
